Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

This Office Action is in response to the Amendment filed on 10/06/2009.

Claims 11-13, 15-19, 21-27, and 28-30 are pending in this application.

Claims 1-10, 14, and 20 were cancelled;

Claims 16-18, 21, and 26 have been amended

Claims 28-30 have been added;

Claims 11, 17, 18, 21, and 28 are independent claims.

Election by Original Presentation

Newly submitted claims 28-30 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

As recited in the original claims, the invention directs to a method/device/a computer-readable medium comprising:

determining an authentication level required for the transaction based on a parameter of the transaction; performing authentication of the user for the transaction before completing the transaction when a first one of the authentication level is determined; and performing authentication of the user for the transaction after completing the transaction when a second one of the authentication level is determined.

As recited in the newly added claims:

- Claim 28: Claims 28 is directed to a method comprising: setting, using the processing device, an authentication level based on the price of the product or service to be

purchased by the customer, wherein the authentication level corresponds to an authentication procedure to be performed.

- Claims 29 and 30: Claims 29 and 30 are directed to a method comprising: selecting a first authentication level if the price is equal to or less than a first predetermined value; selecting a second authentication level if the price is greater than the first predetermined level and equal to or less than a second predetermined level; selecting a third authentication level if the price is greater than the second predetermined level; and if the third authentication level is selected, authenticating the customer after receiving the first confirmation from the customer and a second confirmation from the communications device.
- Setting, using the processing device, an authentication level based on the price of the product or service to be purchased by the customer, wherein the authentication level corresponds to an authentication procedure to be performed; selecting a first authentication level if the price is equal to or less than a first predetermined value; selecting a second authentication level if the price is greater than the first predetermined level and equal to or less than a second predetermined level; selecting a third authentication level if the price is greater than the second predetermined level; and if the third authentication level is selected, authenticating the customer after receiving the first confirmation from the customer and a second confirmation from the communications device are not discussed in the original claims. Inventions from original claims and newly added claims are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do

not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, newly added claims 28-30 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 C.F.R. 1.136(a) ARE AVAILABLE.

The rejections of the original claims 11-13 and 15-27, addressed in pages 2-18 of the Non-Final Office Action mailed on 07/17/2009, are maintained.
